

Appl. No.10/764,101

Response dated June 19, 2006

Reply to Notice of File Corrected Application Papers of March 20, 2006

Amendments to the Drawings:

Enclosed herewith are four formal replacement sheets of the drawings (attached to the substitute specification), and an  
5 annotated set of the drawings showing the changes made (attached to the annotated or marked originally filed specification).

Remarks

In the Notice To File Corrected Application Papers, it is  
5 indicated that a substitute specification is required, and  
that replacement drawings are required. Enclosed herewith is  
a substitute specification. Applicants have corrected the  
originally filed specification to insure that all sheets have  
proper margins. Also, the substitute specification includes  
10 corrections for grammar, and for including words inadvertently  
fully or partially cutoff on originally filed page 23. No new  
matter is contained in the specification.

Replacement drawings are enclosed herewith, and attached  
15 to the substitute specification. The drawings have been  
corrected to remove excessive text. Also, reference numerals  
have been inserted into the drawings, and into the  
specification, along with appropriate explanation in the  
specification, for inserting into the specification text that  
20 was removed from the drawings. No new matter has been added.

The undersigned noted that the claims were incorrectly  
numbered, which resulted in one additional originally filed  
claim being overlooked by Applicants and the USPTO. The  
25 claims have been amended to correct the numbering thereof, to

insure proper antecedent basis, and to make grammatical corrections.

It is believed that all of the requirements necessary for a formal Application have now been met. Accordingly, it is respectfully requested that the Application be passed on for examination. If any issues remain, the undersigned respectfully requests that he be telephoned in order to permit any such issues to be quickly resolved.
